SUMMARY

Frontend developer with a background in Biomedical Engineering. Self-taught in JavaScript, React, TypeScript, and Python — driven by curiosity and a passion for building clean, responsive interfaces. Currently working professionally while growing through freelance projects and continuous learning.

SKILLS

Languages: JavaScript, TypeScript, Python, HTML, CSS

Technologies: React, Tailwind CSS, REST APIs, Git, Vercel

Tools: VS Code, GitHub

PROJECTS

React · Tailwind — **Konnekte** — **konnekte-web.vercel.app**

Multi-page website connecting individuals with construction professionals. Sections, service listings, and contact forms.

React · CSS — **Crumz Can Cakes** — **crumzcancakes.vercel.app**

Animated landing page for a cakes-in-a-can brand. Product showcase, animations, and contact form.

React · REST API — **SWAPI Explorer** — **bereverte.github.io/star-wars-encyclopedia · GitHub**

Interactive Star Wars character encyclopedia consuming a public REST API. Search, filtering, and detailed character views.

EXPERIENCE

02/2025 – Present — **ServiceNow Developer** — **TEAMNOW TECHNOLOGY, S.L.**

Design, configuration, and customization of ServiceNow solutions for corporate clients. Delivered end-to-end projects covering ITSM, ITAM, and SPM modules, automating business workflows through scripts, data integrations, and platform configuration.

07/2024 – Present — **Frontend Developer · Freelance & Personal Projects**

Design and development of web applications using React, JavaScript, and TypeScript. Client websites and personal projects; backend exploration with Python and REST APIs.

07/2022 – 09/2022 — **3D Design and Printing Technician · Internship** — **Hospital de Tortosa Verge de la Cinta (HTVC)**

3D modeling of custom surgical guides from medical imaging data at a public hospital.

EDUCATION

09/2019 – 07/2024 — **Bachelor's Degree in Biomedical Engineering** — **Rovira i Virgili University (URV)**

Online Courses

07/2024 – 09/2024 — **React and TypeScript — Complete Guide with 10+ Projects** — **Udemy**

React and TypeScript: hooks, state management, REST APIs.

02/2024 – 06/2024 — **Frontend Web Development Bootcamp (JavaScript, HTML, CSS)** — **YouTube**

Frontend fundamentals with hands-on projects.
